CAT® OPTICAL AW19

Caterpillar has a long and rich history in building powerful, reliable engines and tough equipment for the biggest jobs around the world, every day.

Every product that bears the Cat name comes from the same ethos: STRENGTH, ENGINEERING EXCELLENCE and EFFICIENCY. This Autumn / Winter season Cat announces a new line up of 8 optical eyewear solutions bringing great value for the XL wearer, helping you to get the job done.

Big men need more room – that's why this season sees Cat launch the first 60 eye acetate frame, **FOREMAN** with the XL fit wearer in mind. New supra sheet steel model, **ESTIMATOR** also meets the demands of XL fit in its 59 eye size.

Cat is known for a quality that you can feel. That's why soft-touch rubberised coating is back for our steel frames. Pressed sheet-steel construction temples, specially adapted for a wider fit as standard. Embossed side trims carry the mark of Cat quality.

New colour details and trims run through the collection – from carbon-effect acetate, to Cat yellow highlights and perforated sports trims.

CTO OPERATOR

MONEL / HANDMADE ACETATE
FULL FRAME

58-18-150 B-38

Deep stamp temple logo
Fully adjustable nose pads and tips
XL fit for big comfort
Handmade acetate tips

XLFIT

CTO-OPERATOR-003 Matte brown / Gloss tort

CTO-OPERATOR-004 Matte black / Matte black
carbon effect

CTO-OPERATOR-005 Matte gun / Gloss black and red

Adjustable parts

Adapted temple width contours

Spring loaded

Built in monoblock

Specially adapted end piece
